# Tango™

## BLENDERS

### High Performance...

Unique Shear Force™ blades offer exceptional blending for iced drinks, smoothies, cocktails, salsas, dips, soups, and more. Perfect for both small and large portions.

### Power...

One horsepower motor delivers plenty of power and torque for the most demanding applications.

### Reliability...

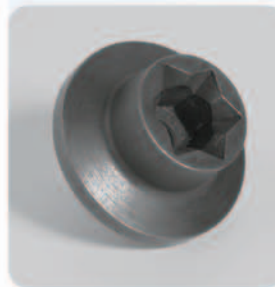

Built to last with durable twin roller bearings in both the motor and cutter assembly. Rugged one-piece stainless steel blade. Heavy-duty all-metal drive coupling meets the daily demands of high-volume bars and restaurants. It all adds up to reliable performance from the brand you trust.

### Innovation...

Model 91350 has a timer that automatically turns the blender off after a preset time. Busy bars and restaurants find this indispensable when they want to help their next customer, not watch their blender.

All-metal Sure Fit™ coupling

Unique Shear Force™ blades

*A perfect blend of power,  
performance, and reliability.*
