

HL-17010K 40 Liter Mixer

FEATURE :

- * Powerful two-motor designed, one to drive spiral arm, one to drive bowl.
- * High efficiency two-speed gives positive results of dough mixing.
- * Bowl has two rotary directions available, forward and backward.
- * Stainless steel spiral agitator is made 25% thicker than those of the industry's leader for increased durability and strength.
- * There is an overload relay to protect motor and transmission components.
- * Stainless steel safety guard is standard. As lift safety guard, the mixer's limit-switch is automatically shut off to protect operator.
- * Mixers are baked coated with long lasting and chip-resistant paint enamel.
