## Rite Equipments Private Limited

### (Eco-friendly E-waste Management Programs & its Process)

**\* RECYCLE E-WASTE WISELY AND PROTECT FUTURE \***

#### **Our E-waste Management Programmes:**

We, Rite Equipments Pvt. Ltd. always ensure Eco-friendly E-waste Management Practices for our e-waste(s) like Refrigerators etc. to protect the Environment.

So, we have been always channelizing/recycling our e-waste(s) when any Refrigerators/other equipment(s) reaches at end-of-life as per Central Pollution Control Board (CPCB) E-Waste Management Rules 2016 & its time-to-time updated guidelines in eco-friendly way to avoid toxic & hazardous electronic reactions spreading in environment and to protect the environment & our future.

**“ E-waste Collection Mechanism / Details including Collection Schemes, Collection Points, Toll Free Number for Collection & Channelization of E-waste & Details of Producer Responsibility Organization (PRO)”**

Namo E-waste Management Ltd.** having its Registered office at #14/1, Mathura Road, Faridabad-121003, Haryana is our PRO who is having a complete end-to-life solution for e-waste channelization management after scheduling a pickup with our customer(s), who bring all the e-waste to the PRO R2 certified facility centre in Faridabad. The reverse logistics are managed by our PRO's own fleet of vehicles and through their channel partners. More details about our PRO may be view on their website at: **[www.namowaste.com](http://www.namowaste.com)**

### Benefit of Recycling of E-waste:

- E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being land filled.
- E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.
- Protects our surroundings- Safe recycling of outdated electronics promotes sound management of toxic chemicals such as lead and mercury.
- Conserves natural resources- Recycling recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.
- Helps others - Donating your used electronics benefits your community by passing on ready-to-use or refurbished equipment to those who need it.
- Saves landfill space - E-waste is a growing waste stream. by recycling these items, landfill space is conserved.

## Do's & Don'ts Guidelines:

### Do's:

- ✓ Always look for information on the catalogue with your product for end-of-life equipment handling.
- ✓ Ensure that only Authorized Recyclers/Dismantler handle your electronic products.
- ✓ Always call at our toll-free No's to Dispose products that have reached end-of life.
- ✓ Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Authorized E-Waste Collection Points.
- ✓ Always disconnect the battery from product, and ensure any glass surface is Protected against breakage.

### Don'ts:

- ✗ Do not dismantle your electronic Products on your own.
- ✗ Do not throw electronics in bins having "Do not Dispose" sign.
- ✗ Do not give e-waste to informal and unorganized sectors like Local Scrap Dealer/Rag Pickers.
- ✗ Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

## OUR PROCESS FOR E-WASTE CHANNELISING/RECYCLING MANAGEMENT
